

# JK REAR MOLLE PANEL

## Installation Instructions

1. Lay the pieces out like shown in the top picture below for 4 door. The bottom picture is for 2 door jeeps
2. Attach the connecting arms to the back side of the molle panels with the screws that are provided.
3. Remove the middle mounting bolt that hold the rear of the top on the driver and passenger sides.
4. Mount the molle panel to the jeep with the middle top bolt and you are done.
